## **CLARIFYING COPYRIGHT**

### **What Is Copyright?**

The term “copyright” refers to the rights of the creator of an intellectual work such as music. Although it may not be easily tangible, a creative work is a valuable property. The Canadian “Copyright” Act protects the rights of creators to retain control over and be compensated for, the use of their creations. Many people don’t realize that the reproduction of copyrighted materials such as print music is in essence theft. As music educators, we all recognize the value of creativity. Music teachers can play an important role in encouraging their students to respect composers’ efforts by ensuring that students are made aware of the intent of the Canadian “Copyright Act.”

### **Misconception #1: A teacher may copy music for educational purposes.**

**False:** Many teachers may be under the impression that photocopying for educational use is legal. Although teachers have paid for a license to enjoy special copying privileges in some situations, print music is excluded from this arrangement. This means that teachers are NOT authorized to photocopy print music. A publisher is often the composer’s representative and should be contacted directly to obtain permission to make copies for any purpose.

### **Misconception #2: It’s okay to photocopy music in order to facilitate a page turn.**

**False:** Permission must be granted by the holder of the copyright (the publisher) on the composer’s behalf in order for a copy to be made for any purpose, including the facilitation of page turns. As an example, imagine that you wish to borrow your neighbor’s shovel. Your neighbor will probably not charge you a fee to use the shovel, but you still would never dream of borrowing it without first asking permission. As with your neighbor, a publisher’s permission is required before you “borrow” an extra copy of print music to which the publisher holds the copyright.

### **Misconception #3: It’s legal to photocopy music from an out-of-print publication.**

**False:** Copyright does not cease to exist just because a book is no longer for sale. It is only legal to make a copy of out-of-print music if permission is granted by the copyright holder. On occasion, a teacher may wish his or her student to study a particular piece of music which is no longer available from music retailers. Contact the publisher of the music for permission to make a copy.

### **Misconception #4: Permission isn’t required to copy works of deceased composers.**

**False:** Copyright exists both in a musical composition and in the physical notation of a musical score. This means that even if a composer’s works themselves are in the public domain (as Bach’s are), a particular publisher’s edition of those works is NOT. So, if you wish to write out a particular Bach Invention by hand, you may do so, but you may not photocopy it from a music book without the publisher’s permission. (Note: The compositions of a living composer or a composer who has been dead for fewer than fifty years may never be copied without permission, either by hand or otherwise)

\*With this public notice, The Frederick Harris Music Company is pleased to grant permission to festival, recital, and exam participants to use one photocopy of one page of their Frederick Harris Music Company original score, for the purpose of facilitating a page turn.

## **GENERAL FESTIVAL RULES**

### **WORKING MANAGEMENT**

1. The competitions shall be under the working management of the Syllabus and Program Committee, which is hereafter called the "Committee."
2. Any questions not dealt with in these rules shall be referred to the Committee, whose decisions on such matters shall be final and binding on all concerned.

1. One student may not compete in two groups participating under the same class number.
2. Only one entry card is needed for duets, trios, and groups. All competitor names must be written on one card. Please indicate name, address and ages of ALL dancers in duets/trios/groups.
3. Time Limits:
  - Solo - 1-1.5 minutes
  - Duet/Trio - 2 minutes
  - Groups - 4 minutes.

The times limits listed above are guidelines. Marks will not be deducted if you exceed the time recommendation.

4. Teachers/competitors must provide their own music on a USB/phone/or similar device which can then be plugged into the provided sound system.
5. Please note, if there are any general rules at the start of this syllabus that contradict the dance rules listed above, please know the dance rules take precedence.

### **Competitor Levels**

- Participants can compete in all dance styles in solo, duet/trio or in a group at 3 levels of difficulty.

- **Level 2 (Competitive)** – for participants who are part of a competition team who train no more than 7 hours per week throughout the regular season (September – June)
- **Level 3 (Elite)** – for participants who are part of a competition team who train more than 7 hours per week throughout the regular season (September – June).

Teachers should use their best discretion when entering group classes where some dancers dance at the “competitive” level and some dance at the “elite” level. Please select the appropriate class while being honest and fair.
